

METHOD AND SYSTEM FOR REMOTE TELEVISION REPLAY CONTROL

ABSTRACT OF THE DISCLOSURE

1 A method, system, computer medium, and other embodiments for integrating unrelated
2 web hosted services with stand-alone media-based devices are provided. Users can access and
3 control the media-based device conveniently with a web-browser through various portals on the
4 Internet. In one embodiment, users access the media-based device through one or more
unrelated web portals, so as to control and to program the media-based device in a single web
session, and to see information both stored on the media-based device and originating from third-
party online sources of information and services in a single integrated presentation.
